个人简介

I am currently working in Ping An Asset Management (Hong Kong) Limited. Previously I worked in Taikang Asset Management (Hong Kong) Limited. I focus on asia credit and us rates market. Now I am actively managing US IG portfolio and global short tenor IG bond portfolio. The AUM under my management amount to around USD 2.5 billion. In terms of the US IG portfolio, the performance of it is consistently outperformed the benchmark(the Bloomberg US IG corporate index–LUACTRUU). I actively manage the portfolio by the use of bottom up approach and quant model in credit investment. In 2023 and 2024, I outperformed the index by around 70bps and 110bps respectively.

Assistant Portfolio Manager &Credit Analyst

Taikang Asset Management(Hong Kong) Co.,Ltd · 全职

2018年12月 – 2022年6月 · 3 年 7 个月

Hong Kong SAR

1. Recognized as the best Analyst by the company in 2020, and was rated as the best class in three consecutive years of assessment

2. Gradually switch from analyst position to an investment manager position. I actively managed three portfolios, namely 1) a pure IG bond portfolio, which recorded around 10% return in 2020, and 1.4% return in 2021, -2.08% up to June 2022, outperforming the index from 2020 to 2022 2) a pure HY china real estate bond portfolio, which has avoided multiple numbers of default real estate names, such as China Fortune Land Development, Evergrande, Fantasia and Sinic etc. In terms of investment strategy, I start with financial numbers, but I would verify information from different sources. The portfolio outperform the china high real estate index in 2021 3) Balanced fund.

3. Have an in-depth research on china high yield real estate sector and research area also covering US treasury.

4. Responsible for the monthly and annual treasury and Asian credit outlook

Associate

China Merchants Securities Co., Ltd.
