平安海控香港 Junior Credit Analyst: 信用风险分析与监控

平安海控香港-Junior Credit Research Analyst

职场位置：Two International Finance Centre, 8 Finance Street, Central, Hong Kong

Key responsibilities

- I Credit analysis: Conduct initial credit analysis by gathering and evaluating financial statements, rating reports, and other relevant data.
- I Data and reporting: Perform financial calculations, maintain accurate records, and help prepare initial internal reports and summaries for senior analysts.
- I Monitoring: Assist in monitoring existing portfolios for potential credit risk and compliance with company policies.

I Collaboration: Work with internal teams like sales and finance to gather information and support recommendations on credit terms.

I Risk management: Support the development of credit risk models and help with credit decision-making processes.

I Research: Stay informed on industry trends, economic conditions, and regulatory changes that may affect credit risk.

Required skills and qualifications

I Education and experience: A Bachelor's degree in Finance, Accounting or Economics, and preferably with quantitative background and programming capabilities. Candidates with less than 3 years of work experience may be considered.

I Analytical skills: Strong analytical aptitude and meticulous attention to detail are essential.

I Technical skills: Proficiency in Microsoft Excel and PowerPoint. Python would a plus.

I Knowledge: A foundational understanding of financial statements and risk management principles is key. Progress in a CFA program can be beneficial.

I Soft skills: Strong language skills, both written and verbal Chinese, are important for collaborating with teams and presenting findings.
